

**CONVERS**

is a true marvel of functionality, engineering & design. All that is visible in the retracted state is the slender brushed steel cover. With a single touch the display panel elevates with a whisper from the housing below, automatically tilting to the preset user angle.

Designed to encourage interaction within the meeting space it can then disappear as silently & quickly as it appeared to allow the parties' interaction & discourse to continue un-obstructed.

#### Smart equipment

With the unique Direct-Axle-Access you can also manually extend and retract the monitor without electrical power.

Thanks to its compact design, the HD screen combined with its elegant exterior, the Convers 220/173 is particularly suitable for

- Trade and banks
- showrooms
- Executive office
- authorities
- parliaments
